

Message from the ICRU President

I am pleased to welcome everyone for the first of our two double-header finals' days. Today we have the deciders of the Irish Permanent Trophy, our 3rd Division League Championship, and the Irish Permanent Cup, our Premier Competition.

This year, for the first time, our competitions are sponsored by the Irish Permanent. As sponsors of the Irish International teams, they have made a significant contribution to Irish Rugby over the last few seasons and their involvement with Colleges Rugby this year further emphasises their commitment to the game in this country. Without their generous and much-valued support we could not run these competitions and we offer them, on behalf of all our students, our earnest gratitude.

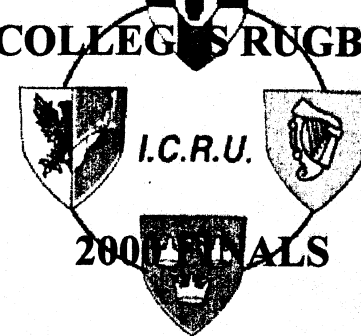

The Royal College of Surgeons in Ireland (RCSI), former Cup winners, are contesting the Irish Permanent Trophy final against the Institute of Technology, Tralee who have made the longest journey today and who are former Division 2 winners. In the Irish Permanent Cup, we have two colleges who have both lifted the Cup on previous occasions. Waterford Institute of Technology won in 1993 but Limerick Institute of Technology are going for "three-in-a-row".

I hope all four teams enjoy their occasion; I congratulate them on reaching the finals and I look forward to two enjoyable and competitive games of rugby.

We extend our thanks to St Mary's RFC, their President, Mr Brendan Spring and Manager, Mr Maurice Hogan, for the use of their excellent facilities. We are also extremely grateful to the match officials, whom I also hope will enjoy their game today, and to all those who have helped to bring these competitions to their successful conclusion, including the hundreds of players who participated. It is for them that we exist.

Jim Dowling, President, I.C.R.U.
